## RECENT PROJECTS

**Dream Finder**  
(Job Hunting Website)  
Team Project

- **Job Platform** : Discover a wide range of job posts across different categories. Job seekers can easily find their desired jobs on our platform. They can filter jobs by type, location, salary, and category to refine their search and apply for suitable positions.
- **User Dashboard** : Users have access to a powerful dashboard where they can view their application history, track submissions, and provide feedback. They can also update their profile information for better job search results.
- **Company and Admin Dashboard** : Companies can review applications submitted to their organizations and manage them efficiently. The admin dashboard allows administrators to manage users, feedback, and applications seamlessly.
- **Technologies:** Next JS, Next UI, Node JS, Express JS, MongoDB, Stripe
